Dear Customer:

Enclosed is my latest selling list of early United States Booklet Panes which includes panes from the Canal Zone and Philippines.

An extensive group of booklet panes are offered on this list. There are numerous positions for each of the listed numbers. Note the 319g panes with a horizontal watermark, the 319Fg panes and the selection of 1 cent AEF panes of 30 (498f), and the 2 cent 499f pane. Also, a large selection of D (Plate no.) positions on 319's through 720b panes. So if you collect different numbers, check the list and send your list of numbers needed for 424d, 498e, 499e and more modern panes up to #1395.

All panes and booklets are of high quality. All have original gum with no separated perforations. Purchasing terms are included below. Photocopies of panes or booklet covers will be sent on request. USSS (BIA) numbers for booklet covers are stated.

I welcome your want-list for early panes and unexploded booklets. Also, for better U.S. singles, both unused and used, and plate blocks of which I have an extensive stock.

I actively buy early panes and unexploded booklets. High prices paid. Also, early U.S. singles and plate blocks and better worldwide stamps and covers.

I attend all major shows in the New York, Philadelphia, Boston, Washington DC areas and the annual APS show. Please stop by if you attend any of these shows. Thank you, Tom Jacks

Purchasing terms: Payment with order. Minimum order \$25. Please add \$7.00 per order for postage and insurance. All major credit cards accepted (send all raised print including the expiration date). Seven day unconditional return privilege; after 30 days, all sales final. Items to be sent for expertizing must be agreed to in advance. We will send scans of any item requested. Thanks, Tom Jacks
